WHY SMART BUILDINGS?

Leveraging Smart Tech for Building Performance

Join the Smart Buildings Center and the Building Commissioning Association for a one-day conference on June 18th, 2019 at the Pacific Tower in Seattle, WA.

Attendees will learn how smart technologies and practices improve building performance, increase tenant and occupant productivity, enhance security, and provide sustained operational cost savings. Hear about real world examples of smart technology applications and practices from building professionals in the industry. Conference sessions will focus on IoT (Internet of Things) for building performance, what tools are being used to increase building performance, and what the industry is doing with these advances in technology.

The conference is aimed at commercial building owners and managers, building operations and engineering staff, commissioning agents, architects, engineers, and property developers. IT also offers opportunities to gain knowledge, connections, and enable success in building performance through smart technologies and practices.

JUNE 18, 2019

WHY SMART BUILDINGS?

Leveraging Smart Tech for Building Performance

AGENDA

8:30 am – 9:30am	Registration & Breakfast
9:30 am – 10:00 am	Welcome Address
10:00am – 12:00pm	Panel Discussion: Unlocking data in buildings
12:00pm – 1:00 pm	Lunch and roundtable discussions
1:00pm – 3:45 pm	Afternoon breakout track

Smart Technologies Track

Smart Practices Track

Connected buildings, IoT, occupant interfaces, and more – ATS Automation	Thermal Bridging (building envelope) and Modeling, A Data Based Case Study - RWDI
Building Analytics: Transforming Your Building Data into Usable Insights	Onsite Voltage Optimization – Innovative Energy Efficiency for (even) Smarter Buildings - Legend Power
Leveraging IoT in Your Smart Infrastructure - Siemens	Grid-integrated Buildings - New Buildings Institute

June 18th, 2019
8:30am – 4pm
Pacific Tower
Panoramic Room - 8th Floor
1200 12th Ave S. Seattle, WA 98144
